Paint a Picture

If you add pictures to other parts of your newsletter and want to match the cool, two-part border on the photo you see at the top of each page, just paint it!

Format Painter, on the Home tab of the ribbon, works for graphics just like it does for text. All you do is select a photo that contains the formatting you want, click Format Painter, then click the photo where you want to apply that format. Wasn't that fun?

Tables Aren't Just For Numbers

The shaded and bordered areas of this template are created using tables. In fact, when you add a table in this template, you'll get that formatting automatically.

On the Insert tab, click Table and you're on your way!

To make it even easier, after you click Table, choose Quick Tables and you'll see a sample table that's been formatted to match this template exactly.

A Quick Sidebar...

If you add another page, you can also add a new sidebar.

Just click in the first paragraph on the new page. Then, on the Insert tab of the ribbon, click Text Box to choose either of the sidebar layouts you see in this template.
