# MEN'S SOCCER RECRUITING GUIDELINES BY DIVISION

## SOCCER RECRUITING GUIDELINES: TRYOUTS

### **NCAA TRYOUTS - starting June 15th after sophomore year**

Division II schools are allowed to hold one practice or tryout for a college-bound student-athlete on its campus as long as the student-athlete is a high-school senior who is enrolled in a term other than the term in which the traditional season in the sport occurs. The school may conduct a medical examination of the student-athlete, and the tryout may include tests to evaluate the student-athlete's strength, speed, agility and sport skills. The tryout may include competition except in football, ice hockey, lacrosse, soccer and wrestling. The tryout is limited to the length of the school's normal practice period in the sport, but in no event can it be longer than two hours. The school may loan equipment and clothing to the college-bound student-athlete during the tryout.

### **NAIA TRYOUTS**

Students are permitted a maximum of two days of tryouts throughout their entire career, and the tryout cannot interfere with school time. The tryout must occur on campus. If a school has a policy for reimbursing all students for such visits, the same can be applied to you as a prospective student-athlete.

\*\*Listed physical features portray the prototypical recruit for each division level. An athlete's athleticism and explosiveness on film is the determining factor for most coaches, so size and athleticism are on a sliding scale. This means the smaller you are on the scale, the more explosive you must be.
